

# Deepantra Infotech

Illuminating minds, engineering the future.

Deepantra Infotech is an AI education and IT services company. We run hands-on AI training programs for schools and colleges, and also provide SaaS/PaaS/IaaS cloud services, AI implementation, website development and LMS solutions.

## Our Programs

### GRADES 3 - 5

#### AI Explorer Program

Fun, interactive sessions introducing AI through games, stories and hands-on activities.

### GRADES 6 - 8

#### Young Innovators AI

Deeper AI exploration — tools, projects and beginner-friendly no-code platforms.

### TEACHER WORKSHOPS

#### AI for Educators

Empowering teachers with AI knowledge and classroom-ready tools.

### PARENT AWARENESS

#### Understanding AI

Helping parents guide their children's use of AI responsibly at home.

## IT & Training Services

#### SaaS / PaaS / IaaS

Cloud solutions built around your needs

#### AI Implementation

Real workflows, not just theory

#### Website Development

Custom web & app projects

#### LMS Solutions

For schools & colleges

#### Hands-on Live Tools

Real AI platforms, not slides

#### Placement Prep

Mock interviews & resume support

#### Certified Training

Industry-recognized certificates

#### School Programs

Curriculum-aligned AI training
